
Marine Fuel and Lubricants

Marine Fuel and Lubricants

Martechnic Hellas and its affiliate companies have more than 20 years experience in consulting and trading on Fuel and Lubricants. Mostly this is in the context of large heavy combustion engines in marine or power generation applications.

Its principal, Kittiwake Development Ltd. (UK), is a leading global provider of monitoring and testing technology solutions with offices in the UK, Germany, USA, and Asia. As an expert in machinery condition monitoring and fuel and lube oil analysis is creating innovative technology solutions that make a real difference to our customers's operations.

Training Manual
